**ANNOUNCEMENTS** 

According to the newspaper critic-ms, it would appear that The Bohe-den Girl as it is being offered by the mian Giri as it is being offered by the Aborn Opera company contains elements some one or more of which must appeal to every theatergoer. Among the features mentioned are Balfe's well known melodious ballads sung by notable singers, an unusually rich scenic outfit, a scene in which a score of horses are employed that supplies all the thrills of a melodrama, a number of circus acts of exceptional merit and a ballet. It would appear that The Bohemian Girl as it will be presented at the Davis theater tonight is decidedly different from the style in which it was done for so many years.

## LETTERS TO THE EDITOR

The Liquer Question. Mr. Editori The high cost of living

has been the alegan of each presidentlaj party in this heated camlal party in this heated campaize giving the high tariff as the
chief cause is it the paramount cause?
No one will deny that the tariff needs
revising, but if it is the cause, why do
other nations where free trade has
been in action have the same cry
about the high cast of living? There
must be some other cause for all the
suffering and misery which is filling our
poorhouses, charitable institutions for
the destitute, sick and insane full to
overflowing. The Health Congress,
now in session at Washington, throws
a most libuminating information upon
this very subject. The men who have
made this congress possible are not made this congress possible are not self-seeking politicians, but studious men who have given their time and best energies to consideration of how to prolong life and how to render the few years humanity spend on this earth the most comfortable and prof-table. Among the exhibits which were earth the most comfortable and profitable. Among the exhibits which were wisited last Sunday by ten thousand people was the exhibit on the extent of the use of alcohol, which is illustrated by a carefully prepared outfit of tables, charts, dummies, etc., from the Social Museum of Harvard university, and from other sources. One chart gave a table showing the expenditure for drink in comparison with incomes on the part of the New York wage earners, which is unquestionably true of the wage earner everywhere and deserves the careful attention of everyone interested in the weltion of everyone interested in the wel-fare of our laboring class. This chart shows that the heaviest drinkers are among the middle classes in the wage -those earning two dollars a day

"As a whole," says the chart, "the families of these drinkers could add at least one room to their overcrowded homes if the money spent for intoxicants and tobacco were devoted to

If every laboring man in Connecticut would not be so keenly conscious of the high cost of living if he spent that wasted money on the necessities of his family. Why do our political aspirants never refer to this leakage in our economic conditions? They have made a great hue and cry against many trusts, but the liquor trust seems to be im-mense, and yet the United States Brewers' association represents eight hundreds millions of invested capital and consumes annually one hundred and eighty million dollars worth of grain and hops, which does not go in-to the dinner pail of the workman, exto the dinner pail of the workman, ex-cept to debase him mentally and phys-lcally. It is a fact that even organ-ized labor clearly recognizes that drinking is a proper cause for dis-charge. Public service corporations do not employ intemperate mes. The tectotaller is a marked man and is in demand in all grades of labor today. These are facts which our politicians absolutely knore, and have apparently absolutely ignore, and have apparently drawn a charmed circle around the liquor trusts. None of us have to go OUR AND LAVERNE

far for the reason why. It is fitting that this Health Congress should hold this enlightening exhibit near the capitol

His stories and jokes are unique, and Miss Laverne, who has earned the sebriquet of the Calbornia Nightingale, is heard in several sweet Irish song, including My Wild Irish Rose, Take Me to the Cabarette, and one other. It can be predicted that a flattering reception will be given the team by the home people.

BREED THEATER.

Sergeant Byrne of the Royal Mounted Pelice the Feature.

Breent Byrne of the Royal Mounted Pelice the Feature.

Sergeant Byrne of the Royal Mounted
Police the Feature.

An unmistakably thrilling picture is the feature at the Breed today and is entitled Bergeant Byrne of the Royal Mounted Police, a superb story of the northwest. It shows the tacifics of the Royal Mounted Police of Canada in their tireless efforts to run down and to capture oriminals. They are said to have never given up a case and to capture a particularly clusive criminal is a giory to them that is second to nothing else. This picture has a powerful plot and is sure to keep the public in a state of animated interest.

Baved from Courtmartial is a stirring war story and includes in its production the destruction of a gunboat, which is made possible only by the assistance of a staunch little southern girl who swims under the cover of night and fires the boat. On today's programme is another gem. Down Through the Ages, photographed in the Temples of Isis, Karnak, Egypt, which were built 1,000 years before the birth of Christ.

deficient; 70 per cent. were morally injured. These are hard facts, and the Health Congress is doing a grand educational work, for what is true of New York is true of all America. Sie is facing decay and ruin just as Rome and other nations did, and history is ever repeating itself. It is also a fact that within a period of fifty years the population of the United States increased 350 per cent., while the number of insane and feeble minded increased 350 per cent., while the number of insane and feeble minded increased 350 per cent. This Health Congress says this is practically due to the prevalent use of alcohol, it does not require a particularly bright mind to see that unless something radical is done, the fit will be swamped by the unfit, and America will share the same fate as Rome. Whose fault is it and what is to be dene? The Health Congress points the way, for it has another placard which bears the question "How did you start drinking?" Twee Hundred and forty-six sicohelies at Bellevue answered as follows: For secent, i treating to eaupation, 7 per cent, i prouble, 12 per cent, out of work, 5 per cent, medicai use, 9.3 per cent, feesire to appear tough, 1.2 per cent, if there was no saloon these temptations would be largely remiged. It is easy to see from the exhibit at this Congress that the saloon is a big factor in the question of the bidge per cent, in the graph of the District Sept. Situated in the Town of Charlestown, R. I., fronting the Atlantic Ocean, on one of the best bathing beaches in the state. These dots are fifty (50) feet frontage on ocean and one hundred fifty (150) feet deep. In the rear of these lots there is a salt water pond nine miles long, sandy bottom, excellent boating and fishing. The price of these lots is two hundred (1500) dollars. Remember the prices that were paid for lots at Pleasant View four years ago and the prices that are being paid now. These cottage sites that I am offering for only \$100 are on the same ocean, same beach, only a few miles east of Pleasant View. Here is a chance to buy a seashore cottage site at a low figure and have it increase in value many fold in a year or two. Avail yourselves of this opportunity and don't be among those that will say (after they are all sold) I wish I had bought one. Come and look these lots over and remember if you purchase one I pay your expenses for any distance not over 100 miles. Transportation from Wester's in auto. Investigate. A FEW SEASHORE LOTS

THE ORIGIN OF LIPE. In the beginning slowly grope we back Along the narrowing track, Back to the deserts of the world's pale

POETRY

The mire, the clay, the slime,
And then, what then? Surely to seme
thing less:
Back—back to nothingness!

You dare not halt upon that dwindling There is no gulf to stay
Your footsteps to the last. Ge back
you must
Ear, far below the dust,
Descend, descend grade by dissolving
grade;
We follow unafraid.

Dissolve, dissolve this moving world of men Into thin air, and then, O pioneers, O warriors of the light, In that abysmal night Will you have courage then to rise and tell Earth of this miracle?

Will you have courage then to how the head And say, when all is said: "Out of nothingness arose our thought, This blank abysmal nought Woke and brought forth that lighter city street, Those towers, that armored fleet?"

When you have seen those vacant primal skies Beyond the centuries; Watched the pale mists across their darkness flow, As in a lantern show, Weaving by merest "chance" out of thin air

Pageants of praise and prayer; Watched the great hill like clouds arise and set And one named Olivet; When you have seen as a shadow pass-One child clasp hands and pray;
When you have seen emerge from that
dark mire
One martyr, ringed with fire;

Or from that nothingness, by special or from that nothingness, by special grace,
One woman's love-lit face,
Will you have courage then to front that law
From which our sophists draw
Their only right to flout one human creed,
That nothing can proceed—
Not even thought, not even love, from less
Than its own nothingness?

The law is yours, but dare you waive your pride
And kneel where you denied?
The law is yours; dare you rekindle, then,
One faith for faithless men
And say you found, on that dark road you trod.
In the beginning—God

## THE KALEIDOSCOPE

Three new mine rescue stations are to be established in the English coun-ties of Durham and Northumberland similar to the one already in exist-ence near Newcastle. This is in ac-cordance with the mine rescue and aid act passed by parliament in 1910.

The declared exports to the United States for the half year ended June 36, 1912, as indicated by the records of the consulate general at London, aggregated in value \$14,422,438, as against \$56,448,260 for the corresponding six mouths in 1911. The value of these shipments for the first quarter of 1912 was \$41,777,340 and for the following quarter \$34,848,095.

The tremendous impetus which will be given to trade in the Nigerias, now that the Baro-Kano raliway has been completed, is hardly realized by people who are not acquainted with conditions in this part of the world. This reilway, which traverses practically the whole of Northern Nigeria, links Kano, the most important purely native center north of the equator in Africa, with Lagos, on the coast.

Baron Shibusawa, Nakano Buel and other gentlemen, acting on the sug-gestion of the Seattle chamber of comgestion of the Seattle chamber of com-merce, have decided to establish at Seattle a company for the manufac-ture of Japanese silk fabrics with a capital of \$1,500,000, to be subscribed by both Japanese and American capi-talists, the husiness to be placed un-der their joint management. The ob-ject in view is to turn out silk goods that will suit the taste of the Ameri-can public.
